Hint to teachers:

- Issue the project about the museum display at the beginning of the term. The learners need to note that they will be formally assessed on this topic.
- Learners also need to know the assessment criteria (derived from your aims and skills) that will be used:
  - They need to bring together information from different sources e.g. pictures, photographs, text, small objects from home/community.
  - The information selected needs to be relevant. This is a skill, show the learners how e.g. types of questions to ask when using books, newspapers, leaflets, photographs/pictures and objects.
  - Show them how to label the relevant information and how to write it in a coherent way. This can be a teaching moment.
  - Their museum display should include pictures, photographs, written text etc, relevant labels and the name and three sentences of the person in the local area that has made a difference.
- The task needs to be completed under controlled conditions to ensure authenticity.
- Determine a due date and three monitoring dates (a notice displayed in the classroom will remind them).
